## The Linux Professional Institute Examination Completion Report LPI 101 General Linux I

Candidate: Markus Krumpoeck  
ID: LPI000015009  
Site: 46263  
Registration ID: 4061992  
Test Date: 22-Feb-2002  
Exam 117-101 LPI 101 General Linux I

Scaled Score: 610      Required Passing Score: 490      Status: Pass

Thank you for taking LPI's certification exam. Scores on the exam are scaled so the range is from 200 - 800.

Passing a single exam does not signify completion of an LPI certification. Certification is awarded after passing all required exams for a particular level. After passing the required exams, you will receive a printed certificate indicating that you hold the designated certification level.

Employers and others considering the value of professional certification are encouraged to review <http://www.lpi.org/examdev/interpret.html> or to contact LPI for more information. LPI recommends that achievement of professional certification be considered as one of many factors in evaluating the competency of an individual. Consideration should be given to the amount of time that has passed since the candidate completed an exam or certification in order to assess the currency of a candidate's skills.

For more information about LPI and the Linux certification programs, write to Linux Professional Institute, 78 Leander St., Brampton, Ontario, Canada, call 1-905-874-4822, or visit our web site at <http://www.lpi.org>.
